

Usa le rappresentazioni grafiche per risolvere ogni problema.

**Risposte**

$1\frac{3}{5} + 2\frac{4}{5} = ?$

Un modo per risolvere una somma tra frazioni è di annerire prima l'intero (1 & 2).

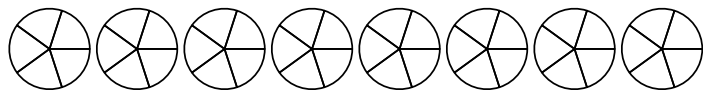

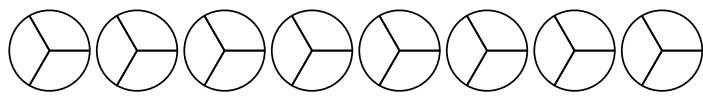

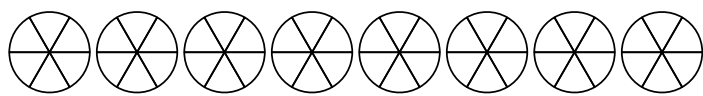

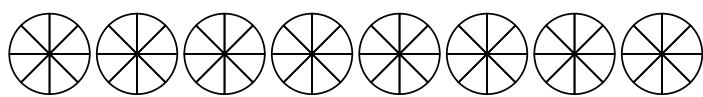

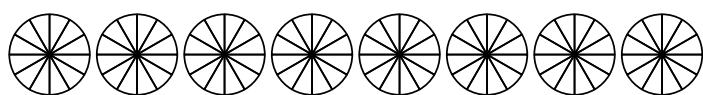

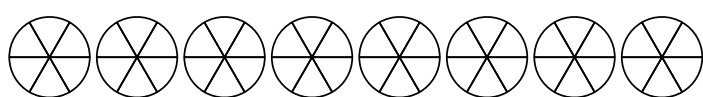

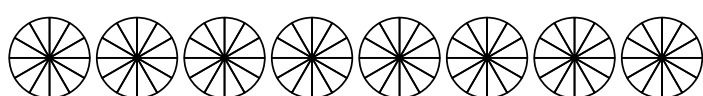

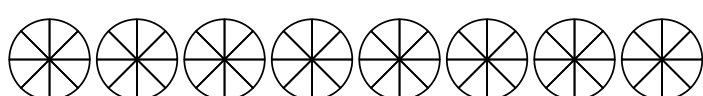

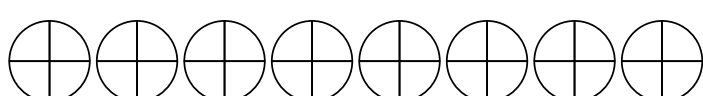

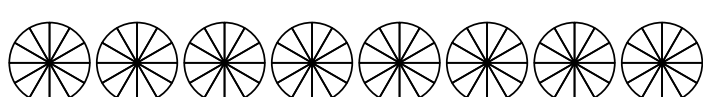

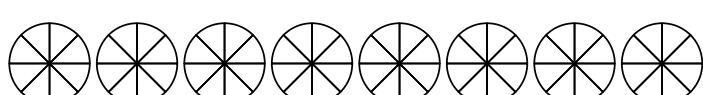

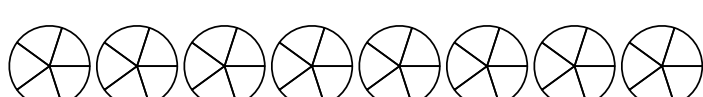

Poi riempire le quantità indicate dalle frazioni ( $\frac{3}{5}$  &  $\frac{4}{5}$ ).

Quando tutte le parti sono state colorate possiamo vedere questo  $1\frac{3}{5} + 2\frac{4}{5} = 4\frac{2}{5}$
