

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

**Dividi e assegna una frazione ad ogni parte.**

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

**Dividi e assegna una frazione ad ogni parte.**

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

**Dividi e assegna una frazione ad ogni parte.**

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

Dividi e assegna una frazione ad ogni parte.

Es) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

2) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

4) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

6) Dividi la figura in 2 parti uguali e indica a quanto corrisponde ciascuna parte.

8) Dividi la figura in 4 parti uguali e indica a quanto corrisponde ciascuna parte.

1) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

3) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.

5) Dividi la figura in 3 parti uguali e indica a quanto corrisponde ciascuna parte.

7) Dividi la figura in 6 parti uguali e indica a quanto corrisponde ciascuna parte.

9) Dividi la figura in 8 parti uguali e indica a quanto corrisponde ciascuna parte.
